

# Edith Twirl Skirt

## PDF Addendum (option to the bias hem)

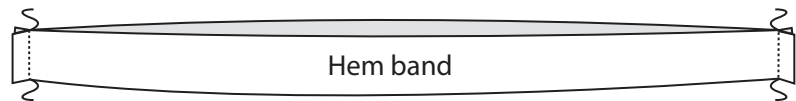

1. Cut out two hem band pieces using the dimensions below.

### Hem band

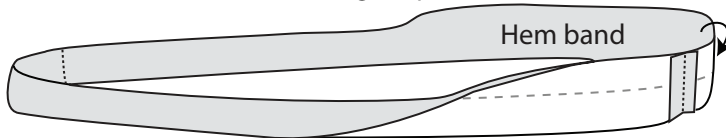

(cut 2)

2. Sew hem band pieces together (with right sides together). Press seams open (or finish seams by serging or zig-zagging and press to the side).

3. Fold hem band in half and press well. Follow remainder of instructions on the original pattern.

## INSTRUCTIONS FOR APPLIQUEING A COORDINATING TOP.

1. Iron Heat 'n Bond to wrong side of fabric using manufacturer's instructions. Let cool.

2. Cut out desired design. Peel paper backing off.

3. Iron design in place on shirt. For knit shirts pin stabilizer on inside of shirt behind design (I recommend the "tear away" stabilizer). Sew a small zig-zag stitch around design. To make your stitches neat and secure, pull your threads through to the back side of your shirt and tie them together in a small knot and trim.
